

# Thrive bunting

## You will need

- Ribbon or string
- A pair of scissors
- A glue stick or double sided sticky tape

## Steps

1. With your scissors cut out the diamond shaped bunting. Fold each piece in half and use a glue stick to stick the two sides together. Leave a gap at the wider end of the bunting to thread your ribbon or string through.
2. Take your string or ribbon and thread the pieces of bunting through. When you have added all of the bunting pieces cut your ribbon/ string and tie a knot.
3. You're ready to decorate your Thrive room or noticeboard!
4. We'd love to see photos of how you use the Thrive bunting to decorate. Share your photos on social media and tag @ThriveApproach
